Our quick recovery heating system and extremely even temperatures throughout the cabinet eliminate "hot spots" and ensure consistent product quality and long hold times (1 to 4 hours).

The *Designer* color option helps blend the cabinet into any décor and powdercoating provides a durable, easy-to-clean surface.

QUALITY
The following features assure the finest performance for years to come:

• Fluorescent lights help showcase food product.

• Tempered glass door and side panels provide maximum heat retention and allow for full cabinet display.

• 1-gallon (4-liters) stainless water reservoir provides all day moisture, is easily filled through the front mounted water cup and easily drained and cleaned through the inside mounted drain tube.

• Low-water protection prevents heating element burnout and alerts operator to low water condition.

• 120-volt operation with attached 15-amp cord set operates on a standard outlet, and draws a maximum of 12 amps.

• Large access doors are field reversible and will accept a 19" (483 mm) diameter pizza pan.
